**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 1-13 and 17-19 are pending. Claims 1, 5, and 10 have been amended and claims 17- 19 are newly added claims in the response filed 5/09/06 entered as Response After Non-Final Action. The IDS filed 08/08/05 has been considered and reviewed.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 5, and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, lines 8-14 recite "writing into a third memory ... the second memory, the first database identifier value comprising a pointer to a database location in a database location in a first database; and accessing the first database ..., wherein accessing the first database comprises using the first database identifier value to point to the database location;". It is unclear what happens to the pointer in the claim language since it is not in the next claim limitation. Suggestion: "writing into a third memory ... the second memory, the first database identifier value comprising a pointer to point to a database location in a first database; and accessing the first database ..., wherein accessing the first database comprises using the first database identifier value pointer to point to the database location, wherein ...". Claims 5 and 10 have a similar problem.

Dependent claim 19 does not appear to be an independent claim because none of the other claims have a database packageset switching table, a first key being built dynamically during the processing of a first user request, building a second key value, and writing the second database identifier. This is confusing since none of the other claim limitations have these features.

Suggestion: Add these claim limitations at least to the independent claims if Applicants' want to have claim 19 to remain as a dependent claim.

Claims 2-4, 6-9, 11-13, and 17-19 are also rejected since they depend from a rejected base claim.

### ***Claim Objections***

4. Claim 19 is objected to because of the following informalities: claim 19 recites "The method of claim 1, wherein the second memory comprises a database ..., wherein first key valued is built ..., the method further comprising:'. This claim limitation would be better recited as "The method of claim 1, wherein the second memory comprises a database ..., wherein the first key valued is built ..., the method further comprising:'.. Appropriate correction is required.
